

Training Title: Collaborative Eco-Systems in the Workplace

Training Organization: Six and a Half Consulting

Defined Instructional Objectives:	Inspired workplaces share a lot in common: from effective time management practices, to efficient meeting agendas, to clear procedures and protocols. This is because at the core of what they do, engaged employees all share a common vision and want nothing more than to achieve their goals in the best way possible. Participants will learn to craft these imperative systems.
Measurable Learning Outcomes:	Participants will develop the ability to see oneself and one's roles and behaviours in the context of the systems of the organization involving interaction and feedback. Participants will learn how to perceive themselves as part of the whole, the influence of the whole upon behaviour and how to influence the whole. Through observing their own interdependence in the environment, they will learn the ability to act intelligently. Participants will learn how policies and procedures are in place to give framework and context towards fostering individuality and innovation.
